

### Other financial obligations, financial guarantees and contingent liabilities

In the context of its normal business operations, the Group has entered into **other financial obligations** in addition to the liabilities shown in the consolidated balance sheet at December 31, 2013. Table [C.28](#) provides an overview of the nominal amounts of other financial obligations. With regard to their maturities, we refer to [Note 30](#) (Financial guarantees, contingent liabilities and other financial commitments) and [Note 32](#) (Management of financial risks) of the Notes to the Consolidated Financial Statements.

Within the context of **financial guarantees**, Daimler generally guarantees the settlement of the payment obligations of the main debtor vis-à-vis the holder of the guarantee. The maximum potential obligation resulting from these guarantees amounts to €0.8 billion at December 31, 2013 (end of 2012: €1.0 billion); liabilities recognized in this context amount to €0.1 billion at the end of the year (end of 2012: €0.1 billion). Most of the financial guarantees relate to the situations described as follows: In connection with the transfer of a majority interest in Chrysler, Daimler provides guarantees for Chrysler obligations; at December 31, 2013, those guarantees amounted to €0.3 billion, whereby Chrysler provided €0.2 billion on an escrow account as collateral for the guaranteed obligations. Another financial guarantee of €0.1 billion relates to bank loans of Toll Collect GmbH, the operator company of the toll-collection system for trucks in Germany. Other risks arise from an additional guarantee that the Group provided for obligations of Toll Collect GmbH to the Federal Republic of Germany. This guarantee is related to the completion and operation of the toll-collection system. A claim on this guarantee could primarily arise if for technical reasons toll revenue is lost or if certain contractually defined parameters are not fulfilled, if the Federal Republic of Germany makes additional claims or if the final operating permit is not granted. Furthermore, arbitration proceedings have been initiated against the Group. The maximum obligation that could result from this guarantee is substantial, but cannot be reliably estimated.

The **contingent liabilities** principally constitute buyback obligations. At December 31, 2013, the best possible estimate for the loss risk from these guarantees amounted to €1.0 billion (December 31, 2012: €0.8 billion). Warranty and good-will commitments (product guarantees) provided by the Group in connection with its vehicle sales are not included in the contingent liabilities. Contingent liabilities also include other contingent liabilities. They mainly comprise possible expenses from liability and litigation risks as well as from tax risks and import-duty risks. The best possible estimate for a possible expense from the other contingent liabilities is €0.4 billion (2012: €0.1 billion).

Further information on other financial obligations and contingent liabilities from guarantees granted as well as on the electronic toll-collection system and related risks is provided in [Note 30](#) (Financial guarantees, contingent liabilities and other financial commitments) and [Note 29](#) (Legal proceedings) of the Notes to the Consolidated Financial Statements.
